Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

This three-bay framed and weatherboarded I-house faces west onto Solomons Island Road. It has a gable roof interrupted by a centered front-facing gable and two brick chimneys built along the interior partition walls. The windows are glazed with two-over-two double-hung sash. There is a one-story one-bay rear ell that was originally a separate building. It is now attached to the house by means of a one-story framed hyphen. A hipped-roof screened-in porch shelters the facade. The house is embellished with sawn and pierced cresting on the apexes of the gable ends. The original siding has been replaced with asbestos shingles. This dwelling dates from the late nineteenth century.
